

GREEN STAR DJ'S Present's

Qu – Zen (Techno)

DJ / Producer

For the fiery redhead Suzy aka Qu-Zen, there was no epiphany, no “eureka” moment when she suddenly decided to start DJing. Instead, years spent in clubs giving her all on the dance floor to everything from hard dance to breaks and eventually techno led to the natural step of buying decks and a mixer. In a short time she has gained a reputation for tight mixing, tasteful programming and devotion to techno, playing at well-respected parties such as Trench, Disconnected, 4our, .darkroom, Church of Techno, Billion Underground (VIC) and Chinese Laundry. In 2014, Qu-Zen took her music (and her fan base) global with a string of sets in Europe, including two gigs at the world-famous Tresor in Berlin, one of which had her playing alongside Tresor Resident 88UW and techno royalty Damon Wild.

When she's not working the dance floor, Qu-Zen spends her time writing her own original material and remixes which range from deep, atmospheric journeys to grinding, speaker-smashing industrial workouts.
